DVD PHOTO SLIDESHOW

Easy STEPS to producing your very own DVD Photo Slideshow:

STEP 1

ORGANIZE YOUR PHOTOS

***Save Time: If you can't decide or don't have time to put your pictures in order, allow us to do it for you and use them in random order. It's a lot of fun with a large variety of photos. You may just want to designate what you would like your first and last photo to be.*

- **Actual Photos:** Place your photos in your desired order and write the number on the back of the photo pressing lightly in the corner with a marker (*using ballpoint pens and pencils may cause damage to your photos*) or use sticky notes.
- **Digital:** Digital files should be saved as .jpeg's with image dimensions of at least 640 pixels by 480 pixels and the quality set to high for best results. Number them (ex. Steve1.jpg) or we will use them in chronological order if not noted. Save images on a CD and mail to us.
- **Slides:** Please number in your preferred order.

STEP 2

MUSIC SELECTION - You may supply 3 songs for the Premium package. Please supply your music on CD (*Let us know the title and track #*). (You may also supply a music wav file burned to a CD if you'd like).
